TOURISM EXPERIENCES IN ARAGON

Are you ready for the experience?

This brochure presents the 25 best tourism experiences in Aragon, selected from all the proposals submitted in different calls from 2016 to 2020.

Tourism has evolved and we now want it to be active, safe and respectful of the environment. Beginning with an activity in a fairytale setting, then delving into history through a visit to a museum and concluding with a traditional or an avant-garde meal, depending on the location, is all we are looking forward to.

Each region has a peculiarity, a history to discover or something hidden that we do not want to miss. We are no longer satisfied with just visiting and seeing, now we yearn to explore the infinite possibilities offered to us by a region like Aragon.

Like Fire in Ice

Benasque Valley

We will ride across the landscapes of Benasque on horseback as though we were in the novel *Like Fire in Ice*, written by Luz Gabás. From reading the novel, we mapped out a series of routes set in the most recurring scenarios, between Benasque and the Portillón de Benasque.

As asserted by participants, it is a touristic excursion so intense that it is hard to dissociate the novel from reality.

Join and Make your own Partcharan*

Tramacastilla de Tena

This is a one-of-a-kind experience to learn all the secrets of the making of pacharán in a weekend. The experience takes place in the Tena Valley, in the heart of the Pyrenees, under the training of our Partcharan expert and accommodated at Hotel Privilegio.

The sloe berries collected and picked in the Tena Valley in October are transformed into an exquisite liqueur after macerating for six months. In April, the liqueur is filtered and transferred into chestnut barrels, where it stays for another six months before being bottled.

*Typical Spanish sloe-flavoured liqueur

Perseids in the Vineyard

Cariñena

Which location is best suited to watch the most prolific meteor shower of the year? This was the question we had in mind at Bodegas Garbada. The answer: A place free of light and noise pollution, accessible and beautiful: our vineyard.

Guided by our expert vine-grower, we will learn how vines are grown while the sun sets behind the green fields of Cariñena. This is followed by a tasting of our wines hosted by Ignacio, the manager of our winery and after that a snack dinner will be offered.

With the use of a telescope, we will be able to observe Saturn, Jupiter, the Moon, Cassiopeia... all of this, with jazz music playing in the background.

Family Survival Adventure

Sierra de Loarre Region

Every year many people get lost in the mountains. These are moments when resourcefulness and instinct are essential. But what if the youngest members of the family got lost?

With our survival activities we want the whole family to have fun while learning techniques and gaining skills. Finding water, sending signals or building a small shelter can make the difference and take us a happy ending.

We work on 5 fundamental aspects of survival: Water, Fire, Shelter, Orientation and Rescue.

Vertical Dreams

Riglos

Vertical Dreams makes climbing and cliff camping more accessible to the general public, converting them into an experience within the reach of everyone.

The experience, which lasts two days and one night, starts by getting familiar with the equipment in an adventure park, at a picnic with local produce.

In the evening, we ascend the cliff: you can do it on foot or by climbing. We watch the sunset and have a Deluxe dinner. We sleep suspended on the cliff, more than 100 meters up. In the morning we have breakfast and abseil down to end the adventure in a spa.

Whispering to Vultures

Sierra de Guara Region

The activity starts in Santa Cilia, from where we move to Muladar, to have a closer contact with birds and the natural environment. The griffon vultures or Egyptian vultures will be at arm's length and we will almost be able to touch them. The icing on the cake of this experience might be the majestic flight of the bearded vulture and its orange plumage; an endangered species very frequent in the Aragonese Pyrenees and the Sierra de Guara.

After this impressive experience, we will return on foot to Santa Cilia where we will have the opportunity to visit La Casa de los Buitres, a small museum and an interpretation centre. Bring along your camera and your binoculars. A perfect activity to share with children 8+ years old!

Adapted Dual Zip Line Fuentespalda

The magic of the Fuentespalda zipline is the feeling of flying like a bird. It is the longest double zip line in Europe with its 2 km length. The departure platform is located at Punta de la Umbría at an altitude of 1015 metres and the arrival platform is situated next to La Ermita de San Miguel at an altitude of 790 metres above sea level.

It is an authentic challenge that meets the required safety standards and has official approval. You will experience a feeling of pure adrenaline and fun; it is suitable for everyone and especially for people with reduced mobility. There is no age limit for the zip line, albeit the required minimum weight is 50 kg, and the maximum weight is 110 kg. The minimum height for children is 1.35 m; they can take part in the activity in a tandem style, provided they meet the requirements of this style.

Truffle Experience

Mora de Rubielos

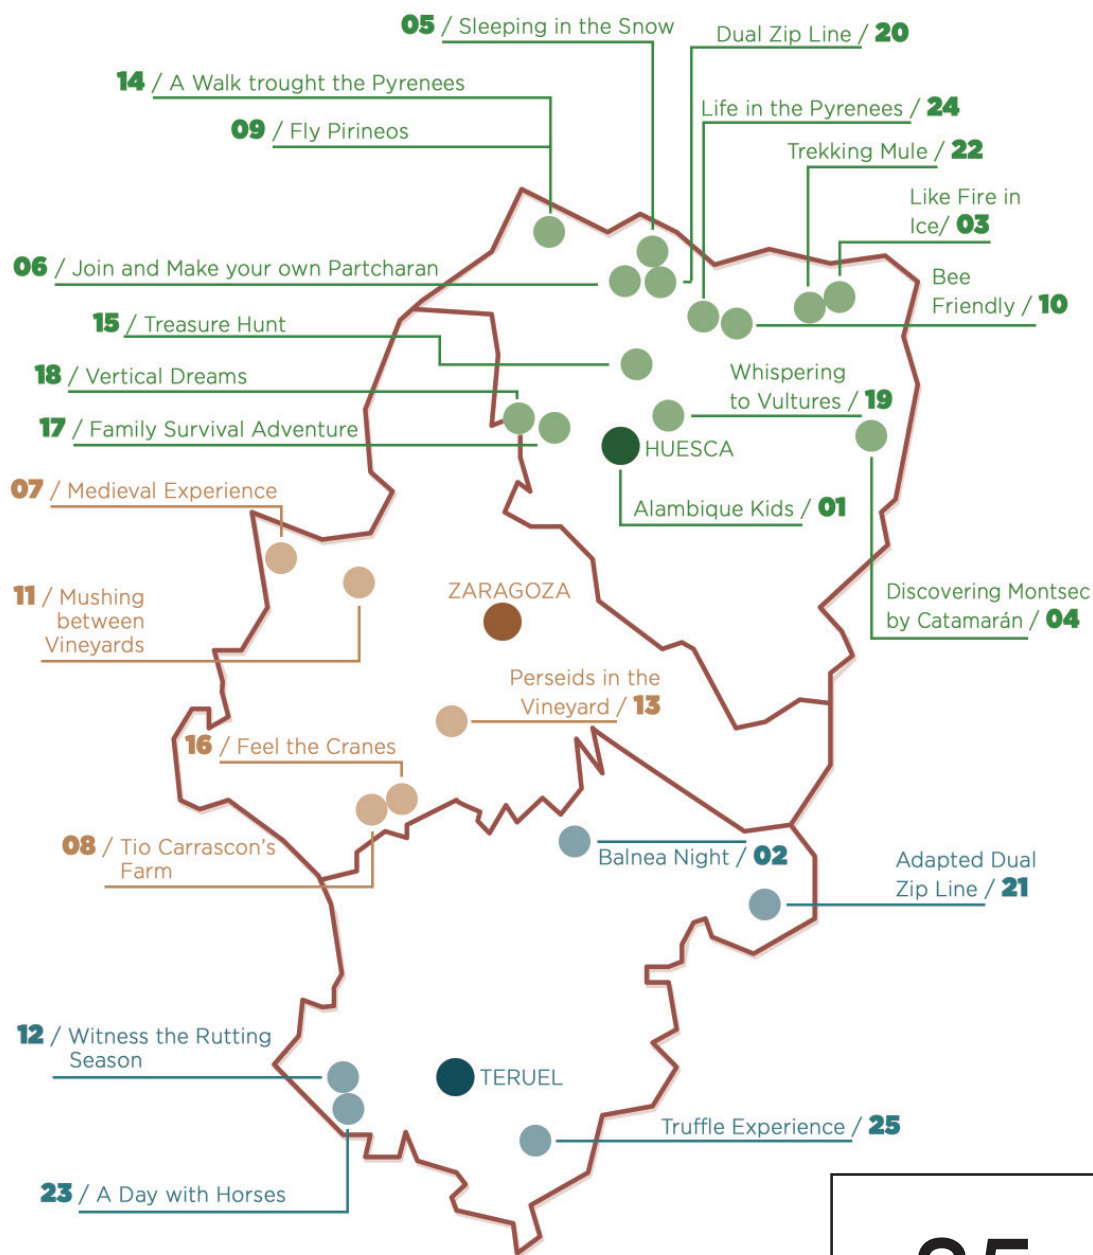

An authentic way to get to know the world of truffles in depth. The activity has three parts: an introduction to the world of truffles, a truffle hunt and a truffle tasting.

After the introductory talk about the consumption of truffles, their different species, their uses and their aroma, we will go to the Masía El Oliva farmhouse to collect truffles. You get to witness the dog and the truffle hunter in action and then we will extract some truffles ourselves. To top it all off, the tasting of the truffles we have found takes place at Melanosporum Restaurant, with truffle menu.

This activity takes place every Saturday during the truffle season.
